

Intralogistics Network in Baden-Württemberg

THAT'S US

Pooling expertise

We represent the entire value chain in the intralogistics - ranging from manufacturers of components and systems, integrators, consultants, warehouse managers to researchers and university professors.

Intralogistics Network in Baden-Württemberg

THAT'S WHAT WE ARE DOING

Initiate projects

We initiate and acquire application oriented research and development projects and publish new methods and technologies

Accelerate innovations

We visualize practical requirements and trends in the intralogistics. Together with our partners, we ease the way to new and innovative solutions.

Think tank for users – Communication network for companies and academia
